

**New
Zealand
Network
Operators
Group**

What?

- Mailing list started in 1998
- Approx 800 subscribers
- People who keep internet going in NZ
- Sister groups / mailing lists incl NANOG, RIPE, FrOG, SANOG.
- Annual meets from 2002

Why?

- Meet and learn from each other
- Hear from carefully selected speakers, from beyond as well as within NZ on current and future developments within the industry.
- Overseas meets of similar nature are expensive and not many NZ ISPs - mainly small to medium businesses (the expense or time of sending their key technical team.)
- Meet as a group to share experiences that are unique to NZ.

Who?

Target audience mainly be technical staff within the network operations team of Carrier Networks, Internet and Telecommunication service providers. These are the people who design and run the networks and systems at Internet related organisations.

Attendees: Sample job titles

Technical ISP and telco staff at all levels including:
Technical Director, Network Manager, Operations
Manager, Technical Specialist, Senior Network Engineer,
